Yes	x
Yes	X

# 5.4 Which laboratory equipment is at your disposal?

Metallography, spectral analysis, surface analysis and many more

# Supplier self-disclosure

## 6. PRODUCTION

#### 6.1 Which production facilities do you utulise?

Strip rolling mills, slitting lines, annealing plants, hardening and tempering lines, installations for edge treatment and machining, tempering furnaces, packaging lines

# 6.2 What type of material do you use and who are your main suppliers?

Hot rolled strip, hot rolled narrow strip / HOESCH Mittelband, Thyssen Krupp, Arcelor, Salzgitter, and many more

# 7. LOGISTICS

#### 7.1 Which are your data communication facilities?

SAP, WEB-EDI, others on request

# 7.2 Which logistic concepts do you handle?

Keeping of week-precise delivery times, customised concepts, consignment stock

## 7.3 Do your logistic concepts provide batch traceability?

Yes x
-------

#### 8. PRODUCTS

# 8.1 Which products do you offer?

Classic cold rolled strip, base material for strapping strip, micro-alloyed cold rolled steel strip, case hardening steels, tempering steels, spring steels, quenched and tempered steels

# 8.2 Which additional material conditions do you offer?

High strength micro-alloyed grades, bainitic hardened steels; Surface treated cold rolled strip, Strip with pore-free mirror-finished surface (MC), strip with special edges, narrow strip (in coils or oscillated wound condition); RiWi-FLEX

## 8.3 Which regional key markets are supplied by Risse+Wilke?

- Germany- France- Poland- Switzerland- Denmark- Italy- Netherlands

# 8.4 What is your export quota? 45%

## 9. SUPPLY CHAIN

# 9.1 How do you react when becoming aware of delivery time delays?

The reaction is event orientated or preventative. The customer is informed by mail or phone.

## 9.2 How do you handle production planning and monitoring of dates?

System supported by capacity planning (rough), detailed planning by production control system

# 9.3 How should your customers formulate their material requirements to optimise capacity and raw-material planning?

A demand forecast and / or global orders

# 9.4 Do you maintain a rating system in order to evaluate the logistic performance (and quality) of your suppliers?

Yes x

#### 9.5 How is this system featured?

in-house developped, ratios-supported supplier rating system to evaluate e.g. service, quality, keeping of delivery dates, etc.

# 9.6 Do you have conversations and agreements with your suppliers concerning the improvement /assurance of the delivery performance?

Quality conferences on a regular basis, concepts for delivery time assurance, consignment stocks, slab-stocking, and other
